Re: STB Docket No. AB-6 (Sub-No. 435X), BNSF Railway Company
Abandonment Exemption – In Whiteside County, IL
STB Docket No. AB-987X, Iowa, Chicago & Eastern Railroad
Corporation – Abandonment Exemption – In Whiteside County, IL

Dear Secretary Williams:

This request is filed on behalf of the Village of Albany, which is an Illinois Municipality interested in natural resources and recreation, hereinafter referred to as “proponent.”

Proponent requests issuance of a Public Use Condition as well s an Interim Trail Use Condition rather than an outright abandonment authorization between the southerly boundary line of the proponent and the Northerly boundary line of the proponent.

A. Request for Public Use Condition

Proponent asks the STB to find that this property is suitable for other public use, specifically trail use, and to place the following conditions on the abandonment:

1. An order prohibiting the carrier from disposing of the corridor, other than the tracks, ties and signal equipment, except for public use on reasonable terms. Justification for this condition is: The rail corridor in question is along a scenic river and will connect an existing bike trail. The corridor would make an excellent recreational trail and conversion of the property to trail use is in accordance with local plans. In addition, the corridor provides important wildlife habitat and open space and its preservation as a recreational trail is consistent with those

purposes. The trail is near an important Indian archeological area that should be preserved. The time period sought is 180 days from the effective date of the abandonment authorization. Proponent needs this much time to assemble or to review title information, complete a trail plan, or begin negotiations with the carrier.

2. An order barring removal or destruction of potential trail-related structures such as bridges, trestles, culverts and tunnels. The justification for this condition is that these structures have considerable value for recreational trail purposes. The time period requested is 180 days from the effective date of the abandonment authorization for the same reason as indicated above.

B. Request for Interim Trail Use

The railroad right-of-way in this proceeding is suitable for railbanking. In addition to the public use conditions sought above, proponent also makes the following request:

STATEMENT OF WILLINGNESS TO ASSUME

FINANCIAL RESPONSIBILITY

In order to establish interim trail use and railbanking under section 8(d) of the National Trails System Act, 16 U.S.C § 1247(d), and 49 CFR § 1152.29, the Village of Albany is willing to assume full responsibility for management of, for any legal liability arising out of the transfer or use of the trail, but the Village of Albany should be immune from liability and in which case will only indemnify the railroad against any potential liability and for payment of any and all taxes that may be levied or assessed against the right-of-way owned and operated by BNSF Railway Company.

The property, known as the BSNF Railway extends from Railroad Mile Post 20.31 near Cordova, Rock Island County, Illinois, to Railroad Mile Post 25.40 near Albany, Whiteside County, Illinois, a distance of 5.09 miles in Rock Island County and Whiteside County, Illinois. The right-of-way is part of a line of railroad proposed for abandonment in STB Docket No. AB-6 (Sub-No. 435X).

A map depicting the right-of-way is attached.

Proponent acknowledges that use of the right-of-way is subject to the user's continuing to meet its responsibilities described above and subject to possible future reconstruction and reactivation of the right-of-way for rail service.
